Motorized Compact lenses

As further option for our successful compact lens series Cinegon, Xenoplan and Tele-Xenar Schneider Kreuznach attached a motorized iris to the optics without changing the benefits of the superior and well-known lenses.

The stepper motor with the industrial P-Iris connector enables the use of the existing well-proven optical designs and the lockable focus mechanism with a variable iris control for perfect use of light even under rough conditions. High guaranteed reliability with over 100,000 cycles fulfils the demand of industrial applications.
